SUMMARY

I am a dedicated and adaptable web developer with a strong foundation in front-end and back-end programming. As a dyslexic learner, I've developed resilience and problem-solving skills while mastering technologies like HTML, CSS, JavaScript, Python, and SQL. I hold a bachelor's degree in computer science with a focus on web backend development, and I enjoy building responsive interfaces and full-stack applications. I am confident working with relational databases like MySQL and PostgreSQL and passionate about creating clean, accessible digital experiences that prioritize users.

SKILLS

- HTML5, CSS3, JavaScript (ES6+), EJS, Bootstrap
- Node.js, Express.js, RESTful API design
- PostgreSQL, MySQL (relational DBs), pgAdmin
- Git & GitHub, Google OAuth 2.0
- Pivot tables, functions, data cleaning
- Responsive design, problem solving, collaboration

Camila Demelo
